Subject: New Product Announcement

---

As a result of customer requests, we have developed a stainless steel, stamped mounting foot option for use with our Premium, JIC, and Telecom Line enclosures. These new mounting feet are Type 304 stainless steel versions of our existing mounting foot system.

We will sell these as an option under part number MFKSS. The kit includes four stainless steel mounting feet, four 1/4"-20 pan head screws, and four stainless steel fender washers. The mounting feet slip on to the existing mounting bosses on the bottom of the enclosure, and are held in place by the fender washers and screws. *Note that these are **not** zinc-plated steel.*

The list price for this new kit is \$30.00 each. We have parts in stock right now.

Please let me know if you have any questions. Samples can be ordered through Deb.
